

Len Dierickx

Name: Len Dierickx

Date of birth: 19/12/1976

Residence: Luxembourg

Nationality: Belgian

Availability: Immediate

Profile: Passionate web-builder with 6 years of hands-on expertise developing CMS-based multilingual websites, managing large redesign projects (5000+ pages) and managing an international DNS portfolio of 300 domain names and websites. I developed strong technical knowledge of Content Management System concepts, information architecture and usability deliverables, and SEO/web analytics. I gained full software life cycle experience managing an open source CMS software project. I am leading a team of 2 developers and I have 4 years of experience communicating to high-level stakeholders in a decentralised international environment.

- **Managerial:**
 - Leading a small team of 2 developers
 - Project management role in highly visible redesign projects requiring communication between high-level stakeholders and national management
- **Technical:**
 - Strong (> 5 yrs): Umbraco, XML/XSLT, HTML/CSS/JavaScript (jQuery), HTTP and DNS
 - Average (2 - 5 yrs): PHP/MySQL/LAMP, C#/ASP.NET/IIS/MSSQL
 - Basic (< 2 yrs): Perl, asp/VBScript
- **Platforms:**
 - Strong: Mac OS X, Windows XP, Windows Server 2003
 - Average: Linux Ubuntu
- **Experience:**
 - Strong: Website redesign projects, Wireframes, Personas, SEO, Umbraco CMS, Wordpress
 - Average: Software life cycle management
 - Basic: Marketing mailings
- **Other:**
 - Strong: MS Office, Adobe Illustrator/Photoshop
 - Average: svn, Mantis, Sharepoint,
 - Basic: bash scripting, apache ant
